- John Guest® Quick Connect Fittings*
- Installation Parts Packet
- Easy to Follow User Manual
- Fully Assembled
- One Year Limited Warranty
- Assembled in the U.S.

*also available with JACO compression fittings.

3-STAGE

Designed for simplicity by offering the essentials of a high quality RO system. With multiple stages of filtration, expect everything you need in one compact unit. Perfect for any common application that requires a reliable RO system.

4-STAGE

Designed with the addition of a carbon inline post-filter for “after-the-RO” filtration. Further removes bad tastes and odors with a final polish before going to the point-of-use. Perfect for applications that want the freshest tasting drinking water in every glass.

5-STAGE

Designed with a second carbon pre-filter for more “before-the-RO” filtration. The additional carbon cartridge provides longer lasting protection under certain harsh feed water conditions. Perfect for applications that desire less filter changes or with feed water that has high levels of chlorine and other contaminants.

MODEL	CAPACITY (GPD)	MEMBRANE	DESIGN RECOVERY	NOMINAL TDS REJECTION
3-STAGE	25, 50, 100, 150	2" X 12" (QTY. 1)	30%	98%
4-STAGE	25, 50, 100, 150	2" X 12" (QTY. 1)	30%	98%
5-STAGE	25, 50, 100, 150	2" X 12" (QTY. 1)	30%	98%
