

REPRESSURIZATION PUMP KITS

Flexwave Pressure Tank

Designed to pressurize water from a storage tank to deliver a reliable flow at your point-of-use. These versatile systems are also well suited for domestic/commercial water supply, light agriculture, and industrial water transfer applications. All kits include an industry leading Sta-Rite® jet pump, reliable Flexwave pressure tank, ON/OFF pressure switch, pump mounting bracket, 0-100 psi gauge, pre-sized SCH80 PVC piping, SCH80 PVC fittings, and shut-off valve for easy tank draining.

PN/PL Series Pump

- Fiberglass-reinforced thermoplastic body for total corrosion resistance and high resistance to abrasion
- Self-priming with polypropylene diffuser to prime faster and handle more air
- Attached pressure switch, factory pre-set to 30/50 psi

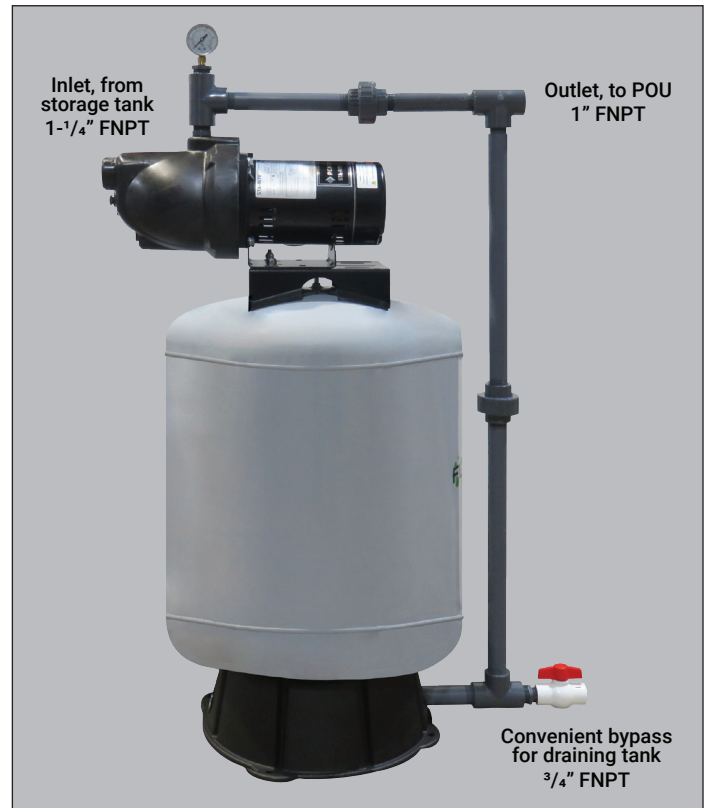

Steel Tanks

- Cold rolled steel is precision welded and tested to assure air tight construction
- Industry exclusive ALL stainless steel water connection; NPT female
- Epoxy primer with electrostatic polyurethane paint finish
- Brass air valve

Designed to work seamlessly with the Reo-Pure™ Repressurization Tank Kits!

Don't forget float switches, weights and accessories

REPRESSURIZATION PUMP KITS

PUMP	TANK	STYLE	ITEM NUMBER
Sta-Rite® PNC 1/2HP, 115V, 1PH 5.2 GPM @ 40PSI	SSR020 20 Gallon	Threaded	5031220
		Socket	5031220SOC
	SSR035 35 Gallon	Threaded	5031236
		Socket	5031236SOC
Sta-Rite® PND 3/4HP, 115V, 1PH 8.1 GPM @ 40PSI	SSR035 35 Gallon	Threaded	5033451
		Socket	5033451SOC
	SSR085 85 Gallon	Threaded	5033486
		Socket	5033486SOC
Sta-Rite® PLD 3/4HP, 115V, 1PH 15.3 GPM @ 40PSI	SSR040 40 Gallon	Threaded	5033563
		Socket	5033563SOC
	SSR085 85 Gallon	Threaded	5033586
		Socket	5033586SOC
Sta-Rite® PLE 1HP, 230V, 1PH 20.7 GPM @ 40PSI	SSR085 85 Gallon	Threaded	50330163
		Socket	50330163SOC
	SSR120 120 Gallon	Threaded	50330186
		Socket	50330186SOC
